Interchangeable Head VDI

Our new line of Interchangeable Head Boring System VDI Toolholders are designed to fit your Kennametal Bolt-on Boring Heads. The DIN 69 880 VDI Toolholder will accept a Kennametal style LP-series Boring Head with internal coolant capabilities.

These toolholders are designed to increase your productivity in boring applications and maintain higher quality surface finishes as a result of a more statically stable tool. Eliminates a joint in tool set-ups which have been known to show performance increases up to 20% to 30%.
